

Amendments to the Claims:

1. (Original) A cosmetic composition characterized by comprising a filmogenic system containing at least cyclopentasiloxane, dimethiconol, dimethicone, trimethylsiloxysilicate and stearyl dimethicone and an emulsifying system containing at least PEG-8 dimethicone.
2. (Previously Presented) The cosmetic composition according to claim 1, wherein the amount of the filmogenic system ranges from 0.3% to 92.0% by weight, based on the total weight of the cosmetic composition.
3. (Previously Presented) The cosmetic composition according to claim 1, wherein the amount of the filmogenic system ranges from 0.5% to 50.0% by weight, based on the total weight of the cosmetic composition.
4. (Previously Presented) The cosmetic composition according to claim 1, wherein the amount of the emulsifying system ranges from 0.1% to 28.0% by weight, based on the total weight of the cosmetic composition.
5. (Previously Presented) The cosmetic composition according to claim 4, wherein the amount of the emulsifying system ranges from 0.3% to 12.0% by weight, based on the total weight of the cosmetic composition.
6. (Previously Presented) The cosmetic composition according to claim 1, further comprising a filmogenic agent selected from the group consisting of cyclomethicone, alkyldimethicone, dimethicone copolyol, dimethiconol, phenyl trimethicone, caprilyl trimethicone, aminofunctional silicones, phenyl modified silicones, phenyl trimethicone, alkyl modified silicones, dimethyl and diethyl polysiloxane, mixed C<sub>1</sub>-C<sub>30</sub> alkyl polysiloxane, dimethyl siloxane, polymethylsiloxane,  $\alpha$ -methyl- $\omega$ -methoxypolymethylsiloxane, polyoxydimethylsilylene, polydimethyl silicone oil, silicone elastomers including combinations of cyclomethicone and dimethicone cospolymer, vinyl dimethicone and dimethicone cospolymer, and dimethicone and dimethicone cospolymer, polyvinyl pyrrolidone, polyvinyl alcohols, and combinations thereof.

7. (Previously Presented) The cosmetic composition according to claim 1, wherein the emulsifying system comprises an additional emulsifying system selected from the group consisting of soybean lecithin, nonyl phenol ethoxylate, sodium or potassium alkyl phosphates, diethanolamine cetyl phosphate, dimethicone co-polymers including modified polyoxyalkylene dimethylpolysiloxanes, methyl glucose, propylglyceryl glucose, ethoxylated glycols, non-ethoxylated glycols, ethoxylated fatty acids, non-ethoxylated fatty acids, ethoxylated sucrose, non-ethoxylated sucrose, ethoxylated pentaeritritol, non-ethoxylated pentaeritritol, ethoxylated alkyl glycosides, non-ethoxylated alkyl glycosides, ethoxylated alkyl polyglycosides, propyleneglycol, glyceryl stearate, ethoxylated sorbitan esters, non-ethoxylated sorbitane esters, sorbitan stearate, ethoxylated sorbitan stearate, polysorbate 80, polysorbate 65, polysorbate 60, polysorbate 40, polysorbate 20, polyquaternium 37, glycol stearate, PEG-2 stearate, PEG-10 stearate, PEG-30 stearate, PEG-40 stearate, PEG-100 stearate, PEG-150 stearate, PEG-1000 stearate, sorbitane palmitate, propylene glycol stearate, propylene glycol PEG-25 stearate, sorbitan oleate, methyl glucose sesquistearate, fatty alcohols, cetyl alcohol, stearyl alcohol, cetearyl alcohol, propoxylated fatty alcohols, ethoxylated fatty alcohols, synthetic polymers formed by carboxyvinyl polymers and copolymers, acrylates, metjacrylates, alkyl acrylates, croacrylates / C<sub>10</sub>-C<sub>30</sub> alkyl crospolymer, acrylamides, taurates, ethylene oxide and propylene oxide copolymers, and combinations thereof and derivatives thereof.

8. (Currently Amended) The cosmetic composition according to claim 1, wherein the composition is in the form of a sunscreen system and wherein the composition is present in the sunscreen system in an amount ranging from 0.1 to 50.0% by weight.

9. (Currently Amended) The cosmetic composition according to claim 1, wherein the composition is in the form of a sunscreen system and wherein the composition is present in the sunscreen system in an amount ranging from 1.0% to 30.0% by weight.

10. (Previously Presented) The cosmetic composition according to claim 9, wherein the sunscreen system is composed of a combination between benzylidene camphor, isophthalylidene camphor, terephthalylidene camphor, cinnamic acid, salicylic acid, benzoic

acid, p-aminobenzoic acid, substituted hydrozibenzophenones, substituted dibenzoylmethane, benzotriazol including 2-arylbenzotriazol, 2-arylbenzimidazol, 2-arylbenzofuranes, 2-arylbenzoxazol, 2-arylindol, mono-phenylcyanoacrylates, diphenylcyanocarylates, triazine derivatives including hydroxyphenyltriazine compounds and benzotriazol derivatives, amides containing a vinyl group, cinnamic acid derivatives, sulfonated benzimidazoles, diphenylmalonitriles, oxalylamides, canphor derivatives, salicylic acid derivatives including 2-ethylhexyl salicylates, homosalates and isopropyl salicylates, diphenylacrylates, benzophenone derivatives including benzophenone-2, benzophenone-3 and benzophenone-4, PABA including 2-ethylhexyl 4-dimethylaminobenzoate, N,N,N,-trimethyl-4-(2-oxoborn-3-ylideneomethyl) anilinomethyl sulfate, 3, 3'- (1, 4-phenylenedimethylene) bis (7,7-dimethyl-2-oxo-bicyclo-(2.2.1) 1-heptylmethanosulfonic acid; 1-(4-terc-butylphenyl)-3- (4-methoxyphenyl) propane-1, 3-dione ;  $\alpha$ -(2 oxoborn-3-ylidene) toluene-4-sulfonic acid and its salts of potassium, sodium and trietanolamine ; 2-ethylexyl 2-cyano-3, 3'-diphenylacrylate ; 2-ethoxyethyl 4-methoxycinnamate; 2,2'-dihydroxy-4-methoxybenzophenone ; methyl anthanilate; trietanolamine salicylate ; 2,2', 4, 4' tetrahydroxybenzophenone ; 2-phenylbenzimidazol-5 sulfonic acid and its salts of potassium, sodium and trietanolamine ; 2-ethylhexyl 4-methoxycinnamate; 2-hydroxy-4-methoxybenzophenone (oxybenzone); 2- hydroxy-4-methoxybenzophenone sulfonic acid and its salt of sodium (sulisobenzone and sodic sulisobenzone) ; 4 aminobenzoic PABA acid; homomethyl salicylate; N-{(2 and 4) [(2 oxoborn-3-ylidene) methyl] benzyl} acrylamide polymer ; titanium dioxide (with or without lipophilic coating); ethyl N-ethoxy-4-aminobenzoate; 2-ethylhexyl 4-dimethyl aminobenzoate; 2-ethylhexyl salicylate; isopentyl 4-methoxycinnamate; 3-(4'-methlbenzylidene-d-camphor; 3-benzylidene camphor; 2,4, 6-trianiline-(p-carbo-2-ethyl-hexyl-1'-oxy)-1,2,5- triazine octyl; zinc oxide (with or without lipophilic coating); 2-(2H-benzotriazol-2-yl)-4-methyl-6-{2-methyl-3-(1,3,3,3-tetramethyl-1-((trimethylsilyl) oxy) disiloxanyl) propyl} phenol; benzoic acid; 4, 4'-[[6-[[4-[(1,1-dimethyl-ethyl) amino] carbonyl] phenyl] amino] -1,3k, 5-triazine-2,4-diyl], diimino] bis, bis (2 ethylhexyl); 2,2'-methylene-bis-6(2H-benzotriazol-2-yl)-4-(tetramethyl butyl)-1,1,3,3-phenol; methylene bis-benzotriazolyl tetraethyl butyl phenol; monosodic salt of 2,2'-bis-(1,4-phenylene)-1H-benzimidazol-4, 6 disulfonic acid; (1,3, 5)-triazine-2, 4-bis {[4-(2-ethyl-hexyloxy)-2-

hydroxy]-6-(4-methoxyphenyl); bis-ethylexyloxyphenol methoxyphenyl triazine; methylene bis-benzotriazolyl tetramethylbutyl-phenol; butyl methoxydibenzoylmethane, 2-ethylexyl p-methoxycinnamate, methylene bis-beznzotriazolyl tetramethylbutylphenol, 4-butyl-methoxydibenzolmethane, benzophenone 3, bis-ethylhexyloxyphenol metho-xyphenyl triazine, octhyl triazone, titanium dioxide and derivatives thereof and combinations thereof.

11. (Withdrawn) A cosmetic composition according to claim 10, wherein the sunscreen system is composed of benzophenone-3, butyl methoxydibenzoylmethane, 2-ethylhexyl p -methoxycinnamate and bis-ethylhexyphenol methoxyphenyl triazine.

12. (Withdrawn) A cosmetic composition according to claim 10, wherein the sunscreen system is composed of cinnamidopropyltrimonium chloride and dimethylpabamidopropyl laurdimonium tosylate.

13. (Previously Presented) The cosmetic composition as defined in claim 1, wherein the cosmetic composition is in the form of a cosmetic product.

14. (Previously Presented) The cosmetic product according to claim 13, wherein the cosmetic product comprises a body sunscreen for skin of adults and children.

15. (Previously Presented) The cosmetic product according to claim 13, wherein the cosmetic product comprises a body or face hydrating product.

16. (Previously Presented) The cosmetic product according to claim 13, wherein the cosmetic product comprises a self-tanning product.

17. (Previously Presented) The cosmetic product according to claim 13, wherein the cosmetic product comprises an insect repellent product.

18. (Previously Presented) The cosmetic product according to claim 13, wherein the cosmetic product comprises a pharmaceutical preparation.

19. (Previously Presented) The cosmetic product according to claim 13, wherein the cosmetic product comprises a sunscreen for hair product.

20. (Previously Presented) The cosmetic product according to claim 13, wherein the cosmetic product comprises a non-rinsable hair conditioner product.

21. (Previously Presented) The cosmetic product according to claim 13, wherein the cosmetic product comprises a rinsable hair preparation product.

22. (Withdrawn) A method of caring for or protecting the skin or hair of an individual comprising the step of applying the cosmetic composition of claim 1 to the skin or hair of the individual.

23. (Withdrawn) The method of claim 22, wherein in the cosmetic composition comprise a sunscreen product.

24. (Withdrawn) The method of claim 22, wherein in the cosmetic composition comprises a body or face hydrating product.

25. (Withdrawn) The method of claim 22, wherein in the cosmetic composition comprises a self-tanning product.

26. (Withdrawn) The method of claim 22, wherein in the cosmetic composition comprises an insect repellent product.

27. (Withdrawn) The method of claim 22, wherein in the cosmetic composition comprises a pharmaceutical preparation.

28. (Withdrawn) The method of claim 22, wherein in the cosmetic composition comprises a sunscreen product for hair.

29. (Withdrawn) The method of claim 22, wherein in the cosmetic composition comprises a non-rinsable hair conditioner product.

30. (Withdrawn) The method of claim 22, wherein in the cosmetic composition comprises a rinsable hair conditioner product.

31. (Previously Presented) The cosmetic product according to claim 1, wherein a total amount of cyclopentasiloxane, dimethiconol, dimethicone, trimethylsiloxysilicate and stearyl dimethicone in the composition is between 3 and 5 weight percent based on the total weight of the composition.

32. (Previously Presented) A cosmetic composition comprising  
a filmogenic system containing at least cyclopentasiloxane, dimethiconol,  
dimethicone, trimethylsiloxysilicate and stearyl dimethicone;  
an emulsifying system containing an emulsifying agent and at least PEG-8  
dimethicone; and  
water as a carrier vehicle for the filmogenic system and emulsifying system.

33. (New) The cosmetic composition according to claim 1, further comprising an oiliness absorbing agent selected from the group consisting of Nylon 12, octenylsuccinate aluminum starch, and combinations thereof.

34. (New) The cosmetic composition according to claim 1, further comprising erythrulose.

35. (New) The cosmetic composition according to claim 1, further comprising potassium cetylphosphate.
